First registration	22-05-2023
Chassis number	YV2R0P0C3PA321907
Origin	Denmark (DK)
Scania Service Agreement	With (can be taken over)
Building	HHR basis
Condition	Very Good
Hydraulic system	With
Delivery	By appointment

HHR42 is one of HH Rental's concept trucks. This means we have handled everything from ordering to delivery. The car was purchased from a Scania dealer in Denmark.

Construction takes place in our own bodybuilder workshop and consists of many different modules that are put together and mounted in this process. This ensures an affordable high standard and not least that we always have parts in stock, both in connection with repairs or damage.

Scania's Next Generation has been a sought-after truck since it was launched on the market in 2017. A reliable vehicle, with excellent comfort and operating economy.

Furthermore, it can be seen that Scania trucks with the right configuration may have a different resale value and consequent depreciation profile than other brands.

In our sales presentation there are specifications and pictures of the vehicle.

Questions should be directed to jesper@hhrental.dk or by phone **+4572408280**.

HHR42 is built with HH Rental's modular program, at JH Diesel A/S, Denmark. Here, a close dialogue is ensured between landlord and builder, with the customer at the center. The majority of superstructure works are outlined in build packages, ensuring faster assembly and accurate pricing of superstructures. There may be equipment fitted, which is not mentioned.

Special interior cabin	Without

Chassis specifications **from the factory** are indicative, where each vehicle may be equipped differently than described. There may be equipment that varies between engine variants and cab type. There may be equipment fitted that is not mentioned.

There may be equipment from the chassis that has been removed in connection with the construction of the vehicle, just as there may be equipment that has been rebuilt or modified in the same connection.

There may be equipment and effects replaced during operation in connection with conversion or wear and tear that have been replaced with another type or make.

Conversion or modification may have taken place after the vehicle has been photographed, which is why the images may show a vehicle before it has been rebuilt or modified.

All decorations on the paintwork are made of foil that can be removed. The foil may have changed in connection with customer switching.

Inquiries to be directed to Jesper Hansen, at jesper@hhrental.dk or by phone **+4572408280**.
